

PHILIPPA NAYLOR CLASSES 2016

Precision Piecing

A full-day class suitable for all levels.

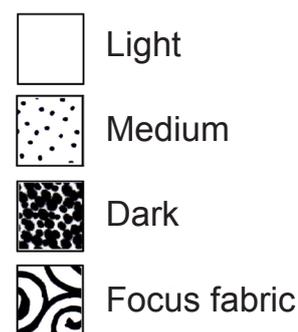

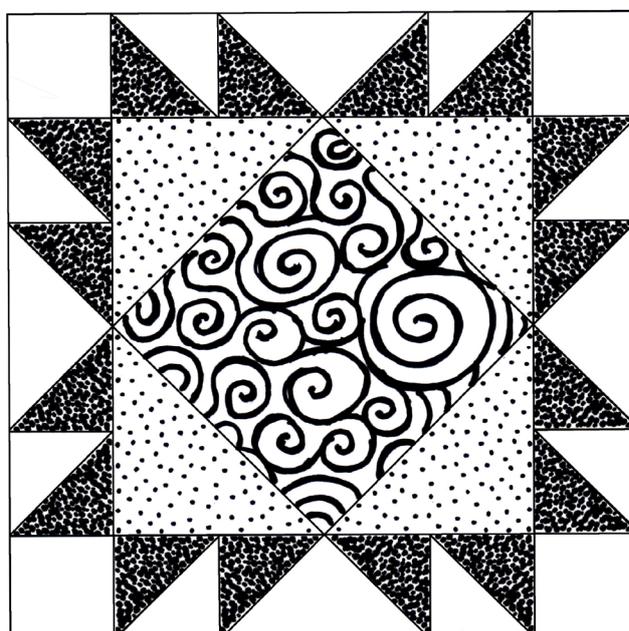

A practical workshop to help you achieve prize winning accuracy. Masses of techniques, information and advice on every stage of the piecing process. Fabric selection, using the correct rotary cutting methods, sewing accurate seams, matching points and pressing are examined in detail with extensive demonstrations. Make a perfectly sized, 'no points lost' block. Learn about borders and how to produce really neat corners. Add double borders to your block choosing either mitred or square cut corners for a perfect finish!

What you need to bring with you:

1. Four pieces of fabric as follows:
Light fabric - one fat quarter.
Medium Fabric - one fat quarter.
Dark fabric - one fat quarter.
Print or 'Focus' fabric - half a metre.

Please note that I have allowed a generous amount of fabric to allow for completing the piece (in case you need to re-cut anything!).

2. Matching fine sewing thread.
3. Sewing machine with slide on table and knee bar if available.
4. Fine sewing machine needles.
5. Scissors for fabric and thread.
6. Rotary cutter and mat. A sharp blade is an advantage!
7. Ruler - 18" minimum.
8. Square - 6½" or slightly bigger (a 6" square is too small).
9. Fine pins.
10. Extension cord.
11. Notebook and pen.
12. Quarter inch sewing machine foot.
13. A fine fabric/straight stitch plate if you have one.
14. Optional. Small square - 2½", 3" or 4" size.

Patterns are provided.

Range of detailed colour photocopies and pattern \$4.00 or £2.00.

Please do not hesitate to get in touch with any questions you might have.
